How to insert page numbering into in-text citations using Write-N-Cite (IV)

When you are ready to insert citation, click Insert Citation -> Insert New.

The Insert/Edit Citation pop up window opens.

1. You can search for references in your RefWorks Account by browsing folders or using the Search References function:
2. Click the reference you want to cite.
3. Enter to Suffix the page number, also remember to insert any commas or punctuation marks. Note that this option is dependent on your chosen output style. The field will be grey, if it is not applicable to your output style.
4. You will be able to view the page numbers in the Preview Citation field by clicking the Compose Citation section.
5. If you want to add another reference to the in-text citation, click the plus button.
6. Click OK to insert the formatted citation into your text.

7. To edit an in-text citation double-click on it and the Insert/Edit Citation window will open:
